EDUCATION

Liverpool John Moores University United Kingdom
Computing and Information Systems Masters

EXPERIENCE

HMRC | Tax Compliance Officer England, United Kingdom | Sept 2024 - Present
- Investigated tax cases, analyzed financial data, and identified discrepancies.
  Ensured adherence to tax laws and streamlined compliance processes, aligning with the structured and rule-based logic in coding and software security.
  Balanced multiple cases, assessed risks, and made informed decisions

Supreme Consult Digital Agency | Software Developer Oct 2022 - Dec 2024
Developed applications using React, Node, GraphQL and MongoDB.
Onboarded and mentored new team members.
Participated in code reviews.
Set up continuous integration using GitHub Actions.
Monitored and fixed application errors/crash reports on Sentry.

iPublicize | Software Developer May 2023 - Jan 2024
- Developed and maintained logistics systems for tracking, order processing, and inventory control.
- Built real-time shipment dashboards using React, TypeScript, and Redux.
- Integrated third-party APIs for shipment tracking, warehouse automation, and payments.
- Optimized database queries, reducing processing time by 30%.
- Led a UX/UI redesign, improving usability and reducing workflow errors.
- Implemented authentication and security best practices for data protection.

Errandlr | Software Engineer Jan 2022 - Dec 2022
- Built custom dashboards to track engagement and campaign performance.
- Integrated Google Analytics, and Facebook Pixel for real-time insights.
- Developed custom CMS solutions for efficient content management.
- Ensured cross-browser compatibility and optimized site performance for fast load times.
- Collaborated with UX/UI designers to create engaging, user-friendly interfaces.
